

Upon reviewing the bank statements of ABC Corporation, several instances of PII were noted. For example, John A. Doe, a prominent client, made a significant transfer of \$10,000 on January 15th, 2023. His transaction included his account number, 1234-5678-9012, subtly embedded within the notes section of the statement. Similarly, Jane Smith's social security number, 987-65-4321, was partially masked but still identifiable through the combination of other data points such as her home address, 456 Elm Street, and her phone number (555) 123-4567.
